Bruker Esquire LC Ion Trap

**Description**

Used for polar molecule analysis, structural fingerprint and quantitation. Ion trap mass spectrometer with electrospray, APCI and nanospray ionization sources. Integrated with Agilent 1100 liquid chromatograph system.

**Manufacturer**

Bruker Daltonics, Billerica, Massachusetts (Mass Spectrometer)  
Hewlett Packard Corporation (currently Agilent Technologies), Palo Alto, California (Liquid Chromatograph)

**Model**

EsquireLC (Mass Spectrometer) / 1100 (Liquid Chromatograph)

**Data System**

Windows 2000

**Installation Date**

May 1999

**Location**

Bagley 87

**Serial Number**

DE07150116

Department of Chemistry  
University of Washington
