

## Required Trainings for Chemistry Personnel

### Trainings for all non-Student Employees

As part of onboarding, all UW employees, temporary employees, are required to take the following trainings within 31 days from the start of their UW employment. Student employees, including graduate students use the “Training – Student Employee’s Form”:

- [Welcome Day Orientation](#)
- [Husky Prevention & Response \(Title IX\)](#)
- [Cultivating Community at UW: Anti-Racism and DEI&B Training](#)
- [Violence prevention & response](#)
- [Reporting suspected child abuse](#)
- [Asbestos awareness](#)
- [Hazing Prevention Training \(for employees who are in a position with direct ongoing contact with students and other employees in a supervisory role or position of authority over employees\)](#)

### Chemical Safety Trainings

If your position requires either the handling of chemicals or working in a chemical lab space, you must also complete the trainings listed below. Please note, your lab may require additional trainings based on specific lab hazards.

- [Compressed Gas Safety](#)
- [Fire Extinguisher Training \(online\)](#)
- [Managing Laboratory Chemicals](#)
- [Fume Hood Training](#)
- First Aid/CPR – Offered through department annually

I certify that all trainings required of me are completed or scheduled to be completed.
