

UW Chemistry Onboarding - Trainings

All staff trainings

Please either forward certificates or add Eric Camp (ericcamp@uw.edu) as the supervisor on all trainings so he may update the central database. These are all required.

- **Welcome Day Orientation** **Permanent new staff only** - Learn about the UW, its mission, structure, and perks involved with being a state employee. The orientation will also include an overview of the benefits package.
 - <https://hr.uw.edu/pod/courses-and-workshops/new-employee-orientation/>
- **Addressing Discrimination and Harassment** **TAs and student researchers see below** - This session helps employees identify situations of perceived discrimination and sexual harassment, resolve the situation, and understand applicable law.
 - Will be presented at the Welcome Day Orientation. Those that are exempt from the Welcome Day Orientation may register here.
<https://ucs.admin.uw.edu/pod/Course/Details/PSH00>
 - Student researchers and TAs will take the **EPIC** training provided by SafeCampus.
<https://www.washington.edu/safecampus/epic-program/>
- **Violence Prevention and Response** - This 90-minute training workshop, facilitated by SafeCampus, teaches employees how to recognize concerning behaviors, respond, and prevent violence in the workplace.
 - <https://www.washington.edu/safecampus/training-options/>
- **Title IX Husky Prevention and Response** - The employee and student courses were created by a diverse and committed group of UW staff, faculty, and students who share the University's goal of creating a UW free of sex- and gender-based violence, harassment, and discrimination.
 - Employee - [Title IX employee course](#)
 - Student - [Title IX student course](#)
- **Reporting Suspected Child Abuse or Neglect** - Provides an overview of EO 56 Reporting Suspected Child Abuse or Neglect, including definitions of child abuse and how to make a report.
 - <https://www.washington.edu/youth/education/>
- **Asbestos Awareness** - This online course will provide general asbestos information, including the health effects of asbestos, building materials that contain asbestos, how to recognize damaged asbestos, what to do if you encounter damaged building materials and whom to contact for assistance.
 - <https://www.ehs.washington.edu/training/asbestos-general-awareness-online>
- **Covid 19 Safety Training** - This 20-minute online training course provides information about the Universities policy and procedures regarding Covid 19. It is required to be taken by all staff and student employees/researchers.
 - [Covid 19 Safety Training: Back to the workplace](#)

All Lab staff and student researcher trainings - <https://www.ehs.washington.edu/training>

- **Compressed Gas Safety, Fire Extinguisher Training, Fume Hood Training, & Managing Lab Chemicals**, available online.
- **CPR/First Aid** - Offered twice a year by the dept. Contact Eric Camp (ericcamp@uw.edu) or Hakme Lee (hakme@uw.edu) for more details.

Last Updated 9/12/23

Other Trainings may be required but are only tracked by your individual lab protocols. Examples ***include but are not limited to*** “Working with HF” “Laser worker safety training” “Radiation Safety Training” and “Biosafety Training”. Please check the following guide or talk to your lab safety officer to see if you require additional safety trainings.
